

Your School Library

Information Literacy with Web 2.0

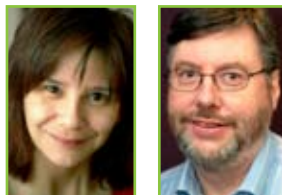

**JUNE 13
TO
JULY 5**

Online professional development for teachers and teacher librarians completed in a flexible timeframe is only a few keystrokes away.

Join us for another Your School Library conference exploring Information Literacy in the Web 2.0 world. This session builds on the phenomenal success of our previous conference – Transforming School Libraries with Web 2.0 – where we discussed the transformational powers of online tools to advance collaboration.

Presentations will be in English, Portuguese and Dutch.

Facilitated by an international team of experts, including Sandra Lee and Information Literacy pioneer James Henri.
